A. Deci updated the EC on **LED Streetlight RFQ – pushed to a future agenda (May 20th)**

A. Deci reported that Sol Smart will announce designated next week **(Y.Meunier to update Select Board)**

Revision will be doing a site visit soon to determine the cost of installing one or more charging stations at Town Hall or the Library.

The Glendale Solar Project is preparing to apply for a utility scale project. Have not submitted formal applications yet. Topsham Solar Advocates is submitting a letter to PB. The project may request to present to the EC.

There is a new EC applicant – interviewing with SB in May.

The draft vehicle procurement policy was reviewed – an upper limit of allowable lifetime cost difference was discussed, and description of Vision and Intent was modified. A requirement to revisit and amend the policy every 5 years due to the rapid change in technology was added. **A couple SB members will be contacted for feedback – Y. Meunier and N. Chandler will collaborate. A memo requesting it to be included on May 20th SB agenda will be drafted by J. Berry by May 11th.**

The EC reviewed the “Energy Webpage” draft document. **EC members to look at draft Energy Webpage to make suggested edits.**

EC to make a spreadsheet of approved solar capacity in Topsham
