### Section 2-Definition of Services:

The Town of Topsham will seek payment for the cost of services provided by the Town of Topsham Fire Department when responding to incidents in the Town of Topsham. Services the Town of Topsham shall seek payment for include, but are not limited to:

#### A - Scene and safety control at traffic accidents:

The positioning of fire apparatus and personnel to protect the scene from other traffic and deny entry into the scene of unauthorized personnel. Police will move traffic around the area the Fire Department has deemed as the safe zone for the occupants of the vehicles and the rescuers on the scene. Safely staging other incoming agencies responding to this incident may also include a pulled hose line for the protection of people on scene from possible fires and fumes or residue from such things as gasoline and airbag propellants. The most important function is establishing incident command of the scene, which is the Fire Department's responsibility at emergency incidents and to coordinate with other responding agencies for their needs at the scene. Patient care is the responsibility of Emergency Medical Service (EMS) personnel but assistance may be requested.

#### B -Disentanglement operations and assist rescue with extrication from vehicles:

Anytime a person has to be lifted or taken out of an emergency situation or forcible entry is necessary to gain proper access to victims, the Fire Department will assist ambulance or EMS personnel in a coordinated effort. Ropes, ladder devices, air monitoring equipment, self-contained breathing apparatus, hydraulic equipment, shoring, saws, cribbing, and airbags are just a few of the types of equipment used in extrication incidents.

#### C - Fluid and hazardous substance mitigation at traffic accidents:

Anytime the Fire Department has to manage any fluids or hazardous substances through containment or absorption with pads, sand or other means permitted by the Department of Environmental Protection

(DEP). Mitigation of all hazardous substances is performed in accordance with DEP regulations.

#### D - Vehicle fires:

Anytime the Fire Department personnel have to contain or extinguish a fire. It also includes the laying of hose lines and positioning a hand line for the protection of individuals at the scene because of fire, smoke, or leaking fluids, such as gasoline.

### **Section 3-Fees for Services:**

Upon adoption of this Ordinance, the Board of Selectmen in their expressed authority shall be authorized to review and set the fees for Fire Department services as they deem in the best interest of the Town of Topsham.
