

## **Interpretive Signage Q & A**

Q: Is the proposal supposed to include the price of construction material of the support system for the signs like granite, metal or wood posts? Or is this proposal just for the 3 panels themselves?

A: This is for the panels only. We have a separate budget for the posts and "hangers."

Q: Should I include the cost of printing the sign on a specific material or would I just supply you the digital files?

A: The completely finished project sign ready to install please.

Q: Will we be doing a site visit with neighbors or others within town?

A: Yes, we could and should add this into the project as many hands make a better product in this case.
